Continuation of 3. NOTE: The amendment adding additional limitations of the monomers comprising the emulsifying and dispersing agent presents new issues not previously claimed that require further searching and consideration..

Continuation of 5. Applicant's reply has overcome the following rejection(s): the rejection of Claims 1 and 4 under 35 U.S.C. 112, 1st paragraph. Applicant's arguments are convincing. The indicated rejection is withdrawn..

Continuation of 11. does NOT place the application in condition for allowance because: Applicant's arguments against the prior art rejections are directed to the newly added limitations, which have not been entered, thus are moot..
